ELECTION PROCESS: CAUCUS SESSION PROCEDURE

What is Caucus?

Caucus is a session in which each District and International candidate is given a set amount of time to give a brief **speech** that details their goals and qualifications. Each speech is followed by a round of **questions** from members that candidates answer.

Caucus & Moderators

Caucus will be held in **Exhibit Hall A** on **Saturday, April 22nd**. It is advised that you arrive early as the session will promptly begin at **8:00 AM**. The Policy, International Business, & Elections Chair will serve as the caucus moderator while the District Governor will serve as the assistant caucus moderator. The PIE Committee Mentor will serve as the adult moderator to help the PIE Chair keep order. These moderators will time the candidates and deem which questions are appropriate or not.

Candidates

All candidates running for District Office or International Endorsement will appear in the Caucus Session and the timer will begin when their appointed time is scheduled.

Etiquette

The candidates are **not** to be touched, asked to ingest any material, or asked to partake in any behavior that is in poor taste. No objects may be thrown or propelled by any means in the Caucus rooms. **Rude behavior will not be tolerated.**

Persons are not allowed to enter or leave the room while candidates are present.

ELECTION PROCESS: HOUSE OF DELEGATES PROCEDURE

Procedure

During House of Delegates, candidates will provide final statements and answer **questions** from each of the current Executives. The delegates will then submit a **final vote** by ballot for the candidate of their choice.

Etiquette

After the Governor convenes the House, delegate entry and exit will only be allowed during periods **between** candidate presentations. In addition, **no cell phone** or any other electronic device usage is permitted during House of Delegates.

Nominating Conference

If there are more than **two** candidates for a District office, International President endorsement, or International Vice President endorsement, or more than **four** seeking International Trustee endorsement, then a Nominating Conference will be conducted. The candidates will be introduced and voted on in the following order: Governor, Secretary, Treasurer, and International Endorsement. There will be no speeches or questions.

After the Nominating Conference, two final candidates per Executive position and up to four endorsement candidates will appear on the final ballot.

International Endorsement

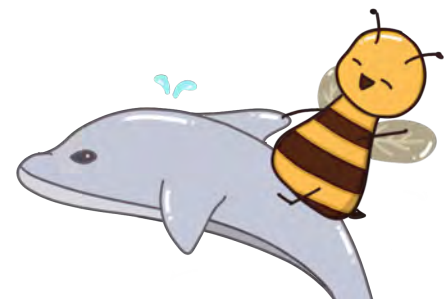

International rules state that “a district shall endorse not more than **one** candidate for the office of President or Vice-President, and **two** candidates for the office of Trustee.” If there is only one candidate for endorsement, delegates will choose whether to vote “yes” to endorse the candidates or vote “no” to not endorse the candidates.

Spectators

A **spectator section** for non-delegate members and adult chaperones will be provided. Spectators may **not** sit with or talk to the delegates, nor take part in the process. **Silence** must be observed at all times. Entry and exit of spectators will only be allowed during periods between candidate presentations.

Election Results

The results of the ballot voting will be announced **Saturday evening** during the third General Session.

What makes you stand out as a candidate for the respective position that you are running for?

CNH needs a leader who will put the members first, and if elected to be your next District Governor, I will be just that. When I ran to serve my home division as their Lieutenant Governor, I ran on the platform of being someone who views the position not as a new title, but rather as being a representative of a remarkable group of servant leaders, which is how D44N exponentially increased their service, fundraising, and passion. This mentality is how as a District we will be able to overcome any shortcomings and possible obstacles that will come to us in our upcoming term. I have always looked up to individuals who prioritize the values of teamwork and adaptation

in their leadership, and have embodied these traits in my own experiences as a student leader within Key Club. Whether it be through reaching out to members individually or being open and receptive to constructive criticism from my peers, leaders have to understand and learn from their mistakes in order to grow, which is something I will continue to do as District Governor. I also understand that the position of District Governor comes with great influence and being a strong role model, and it's imperative that this is used for good. Encouraging members through consistent and frequent communication as well as making sure to hold myself accountable will be a promise I will maintain on the District level, just as I have on the club and division levels.

What has been your most meaningful contribution of service in Key Club? What made it so?

Region 16's 2021 Training Conference would be my first time attending an in-person event bigger than my division and I was extremely nervous, but Amy, my Lieutenant Governor of the time, pushed me to present "Bee-ing a Leader." Anxiously presenting in front of 50 Key Clubbers, I'd eventually learn what it truly meant to provide service. Service is far more complex than you may think, it's the general principle of which good character is reliant on: giving back to your community in any way you can. That day after presenting, at least 30 strangers thanked me, and explained how they never knew this information about Key Club and were now excited to be a part of it. That feeling of helping to contribute to a group of people's passion to serve was so rewarding and one I will never forget. Because of this experience, I signed up to be one of the Conference chairs the following year. I wanted to give back to hundreds of members what I received from this amazing event: the ideals of what it meant to be a true leader who has an impact on their community. This contribution of service proved to be just as rewarding as my original experience, with countless members expressing to me how important RTC was to their leadership. As District Governor, I strive to be the same individual my past Lieutenant Governor was, who can help push the thousands of members within CNH to become the best leader they can.

What makes you stand out as a candidate for the respective position that you are running for?

I am incredibly selfish. It is when my back hits the mattress after a DCM, training conference, or service event, that I am overwhelmed with a sense of fulfillment. It is when I stood on the stage of the Golden Bear Theatre at Fall Rally South, that I knew nothing could ever compare to the feelings of pride for all my division had accomplished. It is when I respond to "How Do You Feel?" that I know I have found my home away from home. These feelings have ultimately driven me to serve others ahead of myself, as nothing compares to the reward of uplifting those around me. It is with this unfaltering passion for Key Club that I am confident in my ability to dedicate all of my efforts into serving our District in the best way I can.

So unlike many, I am proud to say that I am selfish because it is my selfishness that keeps me

committed to creating a lasting, emotional connection with members. It is my selfishness that propels me to constantly learn and grow to become a better leader. It is my selfishness that serves as the fuel for my desire to contribute creative and new ideas to improve our District. And perhaps the most despicable part about my selfishness is its desire to spread to other people-to make them experience the same sense of joy and fulfillment when committing an inherently selfless act for their community.

What has been your most meaningful contribution of service in Key Club? What made it so?

My most meaningful contribution of service in Key Club took over the course of three years and continues to be the very reason why I've developed a profound love for this organization. It occurred when I was officially the LTG Elect of Division 04 North where a member approached me to tell me that she had been rooting for me ever since I initiated a conversation with her at a DCM. I've always taken pride in my ability to remember faces and names, so I should have remembered her, but I didn't.

So I stood there speechless as she told me how that conversation encouraged her to become more involved in our organization and eventually a part of her club's board. And that was such an eye-opening, transformative moment for me to think that maybe one of the biggest impacts I've made on my community, were not the service events I planned or the fundraisers I held, but rather it was the times I approached strangers with open arms, welcoming them into our ohana.

From that point on, I continuously strived to connect with members and unlock their potential to become the leaders of tomorrow. We made leadership synonymous with changing the world, but perhaps we should realize there is no world, instead there's only eight billion understandings of it, and if you change one person's understanding of what they're capable of, one person's understanding of how powerful an agent for change they can be, you've changed the whole thing.

LINA TRAN FOR CNH DISTRICT GOVERNOR

BUZZ BUZZ CNH!

Do you remember throwing pennies in fountains as a kid? Blowing on dandelions you come across and candles on your birthday? Closing your eyes and clasping your hand when you see a shooting star? We are all no strangers to the concept of wishes and despite them taking form in different shapes and sizes, there is no doubt that we are all **connected through our wish** to leave the world better than we found it. Wishes act as the **seed for our tomorrow** and it is the way we begin our journey to initiate the change we **hope** to see within the community. CNH, it is my **greatest wish** to become your next **District Governor** and **make YOUR wishes come true.**

What makes you stand out as a candidate for the respective position that you are running for?

My desire to keep improving and my compassion have been the driving forces in my Key Club journey. Growing up as a competitive pianist, I learned the importance of having a great work ethic and striving for growth. It led me to develop an unbreakable passion for service, and provide an amazing experience to members around me. One of my main goals as Division 35 East Lieutenant Governor was to create an inclusive environment for all members, regardless of what club they came from. Through my efforts to create a connected and accepting community, I realized how Key Club can have a lasting impact on the people around me. I believe that this attention to detail and capacity for empathy are what truly set me apart. During this term, I was honored to have been one of three Lieutenant Governor's appointed onto the Strategic Planning Committee. This required me to take a deeper dive into our Monthly Report Forms and look through what changes were needed in order to improve our

District as a whole. As District Secretary, I will build upon these experiences to strive for further advancement. Whether it be through utilizing our platforms like the CNH Youtube or creating new Service Project manuals, I want to provide improved resources to better your Key Club experience. I believe my passion and ability to connect with others will help our District reach new heights, and spark a flame for your desire to serve our home, schools, and communities.

What has been your most meaningful contribution of service in Key Club? What made it so?

Key Club has brought a completely different meaning of service to me. After attending my first ever Division Council Meeting titled "Wishing Covid Away", I felt like an evolved version of myself. We were making 1,000 paper cranes as a way to maintain hope during the pandemic. Little did I know that a single crane-making event would mark the start of my Key Club journey. Every breakout room I joined was filled with positivity and inclusivity; no matter who I talked to, and despite being an online Zoom event, there was a sense of familiarity. Throughout the event, I met a diversity of Key Clubbers from all across my division, all with one goal in mind: to make 1,000 paper cranes. Each member had made me feel so welcomed, despite being complete strangers. This moment single-handedly made me want to do more for my community, fueling my love for this incredible organization. I was inspired by the sheer amount of passion each and every member, officer, and leader had in that Zoom meeting. This event led me to see how Key Club positively influenced not only myself, but everyone to serve their community. It was surreal to see such a simple task, like folding an origami paper crane, have such a huge impact. To this day, I look back at that moment and realize how it has changed me—because without it, I would not be the person I am today.

2021 & 2022 Academic Achievement Award

What makes you stand out as a candidate for the respective position that you are running for?

I believe that my experience as the current District Secretary and my strategies for positive change allow me to stand out as a candidate. Since February, I have had the honor of serving in this position as CNH District Secretary, and have since familiarized myself with our current data collection systems and the position's responsibilities. I have communicated with Lieutenant Governors to complete submissions on-time, analyzed documents to determine division and club-level recognition, and prepared resources for Monthly Report Form (MRF) completion. This type of insight not only helps me understand the specific duties, but prepares me for how we want to start next term strong. By looking into issues with MRF completion and club operations, I have identified some of the biggest areas for growth across the

district. Utilizing the methods I applied to my own division and the ideas based on what I have experienced through working with others, I came up with many strategies that I believe can help our district increase accurate submissions and club activity. I want to increase efficiency of communication throughout the different levels of the district and allow those on the District Board to connect with and support club secretaries. Additionally, I aim to make resources that can allow club secretaries to collect data that is inputted into the MRF and for Lieutenant Governors to provide them direct and specialized support. I plan to take action to initiate these goals and use my experiences and strengths to help our district succeed.

What has been your most meaningful contribution of service in Key Club? What made it so?

While I have found many of my contributions to be significant, some of the most meaningful moments have been at the various club-level service projects. Out of all the projects in the last few years, helping at our school's annual Santa's Workshop and the Kiwanis of East Hawaii Easter Egg-stravaganza were definitely standouts. For Santa's Workshop, I spent the day as a gift wrapper, carefully folding and taping the holiday paper over the gifts elementary school children picked out for their family and friends. Their bright smiles on their faces were infectious as they were fascinated by the many bows and ribbons I had at the station. Talking with these sweet kids, who were so excited to do something nice for their loved ones, fulfilled me as I saw how my service directly affects other people. I felt accomplished after each child exited my station, knowing that I had done something good, and ready to help out whoever came next. Similarly, at the Easter event, fellow members and I assembled easter craft kits for elementary school children and distributed them at a drive thru since the pandemic prevented the Kiwanis from hosting their regular Egg Hunt. We had spent countless hours assembling each bag to make sure they had all the necessary materials, preparing for the big day. Seeing the kids' wide smiles to accept the kits and hearing their gratitude made every minute worth it, and showed me once again what hard work towards a good cause can accomplish.

STRENGTHEN

With the largest district in Key Club International, it can be difficult for CNH to connect with club secretaries. I wish to strengthen this connection through direct feedback systems as well as interactive and consistent reflector messages.

TRANSCEND

Key Club is known for our recognition programs that reward our members and clubs. I plan to use resources such as AAR & MRP Checklists as well AAR Support Kits to encourage clubs to reach and transcend their goals.

ASSIST

To assist club secretaries with the completion and on-time submission of the Monthly Report Form, I plan to create and promote resources to aid in gathering the data that is inputted into the MRF and for Lieutenant Governors to directly give assistance to club secretaries

REVISE

In order to help make MRFs as easy as possible to complete, I would like to revise the documents to fix errors, rearrange and highlight specific sections, and make data transferring from one to the other more simple.

SERVE

CNH has struggled in the past terms to reach our high service hour goals. I believe that with a more reasonable service goal and utilizing the developing District Service Project Database we will be able to see an increase in service hours in the next term.

What makes you stand out as a candidate for the respective position that you are running for?

A passion to help others, not just my community, is something I have that's unmatched by anyone in CNH. I have grown fond of those around me within my time here. I initially joined for the people, but as I grew more in tune with Key Club, I began to fall in love with the work. That love I have for Key Club work has led me to see things in new lights and drove me to improve the conditions that make others feel burdened. The best way I want to do

this, with my position, and candidacy, is to restructure both the Division Monthly Report Form and the Club Report Form. By reorganizing and removing the redundant aspects, secretaries will be able to finish the MRF in much faster times, thus being less reluctant to not fill it out. Not only will this increase on-time submissions, it'll also increase accurate reporting. As of now, I have successfully reorganized and restructured the DMRF and the Club MRF, in ways that several current secretaries would feel relieved with. This is what makes me different from the other candidates, because I didn't just say what I wanted to do or make, I provided you with a visual, to further believe in me, and in the new methods I have to bring. My passion was what made these new forms a reality. I hope that you see the reality I see and that you'll trust me to bring us to that new reality.

What has been your most meaningful contribution of service in Key Club? What made it so?

I still remember it vividly from the moment I got dropped off to the moment I left dinner at Daug Haus. Light the Night 2021 was an event more memorable than anything I had experienced before. It was my first big Division event as a baby Key Clubber and my first real organizational service event. I remember being so excited and ecstatic to do everything. I bounced from station to station doing every little task I was given, grabbing every chance I had to just simply do more. I also took that time to coincidentally say hi to everyone I recognized, not knowing this would start my journey of socialization. As night fell I remained at the station I was assigned to, the Red Lantern Station. I still find all the moments that transpired after extremely funny. Everyone I was with became my friends, and some my closest and most precious friends. All of them told me how I was the expert in customer service and handled each guest with proper attitude and it somehow motivated all of us to do more, and we eventually got rid of almost all the Lanterns. As we ended the night, I remember walking around, watching the light shows, and dancing to KPop songs and of course exchanging socials with my newly made friends. After that we all went out to dinner and enjoyed our evening. My energy and ambition, got me to where I am now, and brought many people out as well.

ONE THAT CAN HELP YOU GROW, AND SUPPORT AND LOVE YOU IN WAYS NO ONE ELSE CAN.

DESIGN

KEY CLUB HAS OPENED A PATH I NEVER THOUGHT WOULD BE AVAILABLE TO ME. BECAUSE OF THAT, I WANT TO OPEN THIS PATH TO OTHERS AND ALLOW THEM TO DESIGN A FUTURE. ONE THAT'LL LEAD THEM TO WHERE THEY BELONG AND ONE WHERE THEY WILL BE ABLE TO REACH AND TAKE PRIDE IN THEIR FULL POTENTIAL. I WANT EVERYONE TO GRAB ONTO THEIR POTENTIALS AND FLOURISH IN THIS LIFE-CHANGING COMMUNITY.

What makes you stand out as a candidate for the respective position that you are running for?

Being lactose intolerant has never halted my love for matcha lattes. Making a pit stop at my local cafe before Key Club events has become stationary within my routine and an inside joke amongst my peers. Similar to how baristas have become well acquainted with my name and order, I've developed a deep understanding of our organization. From adapting my leadership to support the unique circumstances that each club

encounters to facing my own hardships as a Lt. Governor, I will continue to further involve myself within CNH as your District Treasurer. Additionally, I have immersed myself in the realm of public advocacy and have had first-hand experience developing solutions to combat social issues. The concept of service above self is present in all aspects of my life and my ability to identify the needs of communities has blossomed through service. To ensure your voice is heard loud and clear, my continuous effort, strategic planning, and creative ideas are here to support you. I wholeheartedly believe that my unwavering dedication to bettering the lives of others through empowerment distinguishes me from other candidates. When my pockets run low on matcha money, I opt for boiling my own pot of tea. As I watch steam begin to emerge from my kettle, I realize that CNH boils down to YOU.

What has been your most meaningful contribution of service in Key Club? What made it so?

Stumbling into a fully in-person term brought the same pit in my stomach that one too many sips of dairy does. In the blink of an eye, our virtual Key Club experience disappeared and tippy-toeing around COVID-19 precautions was a thing of the past. My first event as Lt. Governor was a service project in honor of Sexual Assault Awareness Month. I settled upon naming the event Shedding Light to represent shining a beacon of hope into a situation shrouded in darkness. Though I initially felt uneasy, this moment redefined the meaning of service for me. As I hauled crates spilling over with art supplies, familiar faces strolled in and soothed my worries. I saw members submerging themselves into their posters and letters of support for survivors whilst interacting amongst themselves. Shedding Light truly lived up to its name when we donated our crafts to a local resource center. The smiles and nods of appreciation from social workers and visitors who passed by as I hung posters brightened a place where vulnerability is omnipresent. When reminiscing upon my Key Club journey, moments like these solidify my belief that we can leave an imprint on more than just our own homes, schools, and communities. I am certain that by intertwining our own passions within service, our impact is boundless.

Addressing issues within our District begins with identifying the root; education- or a lack thereof. What makes you stand out as a candidate for the respective position that you are running for?

My dedication and willingness to receive feedback and communicate are what makes me stand out as District Treasurer candidate. Being an International Baccalaureate diploma student, these qualities are necessary in order to strive with my academics and because of this, they only continue to develop with time. This has translated well into all areas of my life, including Key Club, and it has proved to be beneficial. Alongside this, the meaningful experiences and memories that Key Club has given me continue to make my dedication towards this club to grow. With this, my previous leadership experiences have also made me well equipped and nuanced in some of the responsibilities that District Treasurer comes with such as managing the Membership Update Center and enforcing to meet on-time dues deadlines; I know both are difficult to manage at times and this only furthers my motivation to provide members with resources that make these tasks easier to navigate through. Additionally, with my dedication, my desire to see the District surpass

new heights grows as well. And the CNH District will not be able to do this without YOU, because YOU are the foundation and I desire to become a leader who can support you through my dedication and transparency as we serve our community.

What has been your most meaningful contribution of service in Key Club? What made it so?

Throughout the three years that I have been a member of the Kiwanis Family, there have been many unforgettable experiences and memories that I will continue to hold dear. Every social event that I attend, every training conference that I attend, and every service event that I attend continue to fuel the passion that I have for Key Club and for the service I am able to provide through it. Yet, the one that stands out the most is the one I did at home on my dinner table as E9000 glue made my fingers stick together and its smell filled every breath I took— this was the Rose River Project. Every rose I made out of felt represented the loss of life due to COVID-19, and as someone who lost family members to the virus, the importance of acknowledging all those lives became even more prominent to me. I even remember delivering them on a rainy day. However, the most impactful part of this process was watching, and still continuing to watch, as these beautiful felt roses get displayed in various places. Knowing that I was able to contribute to this large project that not only honors those who passed, but strengthened the unity of our community through a time of struggle as well, made me realize that I could contribute so much to my community despite just having joined Key Club.

What makes you stand out as a candidate for the respective position that you are running for?

What makes me stand out for the position I seek is

that I have in-depth knowledge on almost every position and task on club, division, and region level. I have served a multitude of positions; led many meetings; assisted presidents, LTG's, historians, treasurers, and many others; communicated with advisors, and connected with members. Furthermore, I have assisted board members outside my own club and even my own division. My service to others knows no bounds and my desire and aptitude to master a position has been proven time and time again.

What has been your most meaningful contribution of service in Key Club? What made it so?

My most meaningful contribution of service in Key Club would be my service to the members. I have taken it upon myself to step up and fill in positions on my club board when it was needed. I have dedicated my personal time to complete essential documents and plan events for the enhance the experience of those within the club. This includes things like the Monthly Report Form, the Member Update Center, and the plans for fundraisers like the Movie Night Fundraiser and the Fallstivites Fundraiser. I have dedicated my personal time to assist other board members with their tasks and I have done it with joy and satisfaction knowing that in the long run I contributed to putting the KEY in K.E.Y. Club for those within the club. This is my most meaningful contribution because it has improved the type of fundraiser in my home club and has provided an enriched experience for members that made them want to keep coming back.

ESTELA VASQUEZ

FOR DISTRICT TREASURER

BUZZ BUZZ CNH BEES

My name is **Estela Vasquez** (He/She), and I would be honored to serve as your next District Treasurer! I've never been more excited in my life than I have at any Key Club event-from spirit battles to training conferences, and even to the mountain tops for a trip to KEY Leader, I have always enjoyed myself fully when attending and planning events. Not only that, but I have absolutely **blossomed** into a leader throughout my three years as a KEY Club member and I hope to continue this journey of service.

PRODUCE

I will produce results through the systems I will implement and by focusing on teaching others how to teach so that information can trickle down into the clubs. This will be accomplished through meetings and resources that will be emailed to District Board and LTG's once every two months.

LINK

Linking the Kiwanis Family branches will be accomplished through a new system in which all clubs have access to the list of nearby k-fams so that they may begin to host interclubs. This is important because connecting with the other branches of the Kiwanis Family will strengthen pride and collaboration from clubs

ACCOMMODATE

Accommodating the resources we currently have to provide better access of the CNH cyberkey to members. This will require the need to mainstream the CNH CyberKey and provide resources as to how to make it more accessible. Further resources will also be provided to LTG's to assist them throughout their term with things such as Docs, forms, and spreadsheet templates.

NURTURE

Nurturing people's interest in the club to increase member retention is something that the District has always been trying to figure out. I will accomplish this task by heavily promoting other major events such as KEY Leader and DCON so that members always know they have something to look forward to.

TEACH

Teaching officers and educating members is an difficult task which I plan to improve by providing implementing a new way to promote new resources such as a monthly resource collage so that information is allocated in one location with links, deadlines, event dates, and more!

What makes you stand out as a candidate for the respective position that you are running for?

"Don't do it. You don't know how to swim," my mom warned. I innocently smiled and replied "Okay!" The next thing you know "PLOP!" into the water I went. Even from a young age, I strove to push the limits of any boundaries that had been set. Today, my ability to do so and veer from the natural course of tradition is truly what sets me apart from other candidates. Throughout my Key Club journey, I have strove to approach all situations with a multi-dimensional perspective aiming to discover creative ways to tackle the obstacles present. This is because without innovation, we can not grow. As your District Treasurer, I will bring in fresh and progressive ideas to revamp our current support system for the dues payment process and provide members with

engaging fundraisers. My burning passion and dedication for this organization has translated towards a desire to make this district even stronger than it currently is. More importantly, I want the opportunity to give back and serve YOU because Key Club has truly changed my life for the better. I used to be a shy, unconfident girl who could barely say her name loud enough, but as I built my own support system in Key Club, it showed me that I could be a leader. As your District Treasurer, I am confident that I will be able to use my forward thinking approach and unfaltering love for Key Club to encourage the growth of each individual member in CNH.

What has been your most meaningful contribution of service in Key Club? What made it so?

We often use the word "servant leadership" to describe the type of leadership Key Club embodies, but it wasn't until my first service event as a LTG that I truly understood what this meant. As the blazing sun illuminated against our backs and the chalk absorbed the perspiration dripping from our hands, piece by piece the dust of color caused the once lifeless floor to turn into a vivid mural. The smiles that spread across my members lit up my day even though my legs were sore from squatting and my face was covered in sweat. As community members walked by, we saw them stop and read the words. Their once lugged steps suddenly had some vigor in them, and though they never said it aloud their emotions showed it all - these affirmative words on the chalked up sidewalk made their day. This was my most meaningful contribution to service because from that day on all I wanted to do was be able to make someone's day through my leadership. Through vivid memories like those, it reminds us why we are in Key Club. It is for all the smiles that we can bring to faces. Service will never be just a "part" of Key Club, but instead is a memorabilia of all the changes we have set forth in the world around us. We are the pioneers of the future, and we serve to leave an impact on our community - to share our legacy.

What makes you stand out as a candidate for the respective position that you are running for?

Serving in the club, division, and sistrict, I got the opportunity to expand my knowledge in the different levels of Key Club, connecting with inspiring individuals along the way who share different perspectives and experiences but have the same goal: to serve our community. Ever since freshman year, I have taken full advantage of opportunities in Key Club, attending most if not all meetings, service & bonding events, conferences, and conventions. Even when I didn't get positions I ran for, I continued to be an active member throughout all levels of Key Club with my passion and growth-mindset. There's a countless number of qualified Key Club members, but

I believe I can bring balance and offer a new perspective to the International level especially with my first-hand experience as general member and club officer this past term. While I haven't had much direct experience on the district/international board, I researched on how the overall CNH district, other districts, and Key Club International works, how it's structured, and what goals and progress we made so far. I met with leaders in these boards while also looking at our KCI strategic plan and the board meeting notes that were taken this year to get a better insight on these aspects, which I believe somewhat makes up for what I haven't been able to experience yet. My willingness to learn and improve along with my diverse yet fresh experiences in Key Club is what ultimately sets me apart from other candidates.

What has been your most meaningful contribution of service in Key Club? What made it so?

My most meaningful contribution of service has definitely been serving my home club as secretary this term. More active than ever, this position really helped me bond with members whether it be through chairing service events to keep track of their hours, encouraging them to join and come to the weekly general meetings, reaching out to them to confirm their form responses, etc. Once, a general member came up to me and said that my consistent commitment in Key Club, such as going to events and serving the community, along with my words of encouragement, motivated them to continue to be an active member in this organization. At first when I joined Key Club, I believed that I couldn't make a big impact in the community because of how small my acts of service were. However, once knowing that I can inspire members, even just one out of 400, to reach their potential in serving the community made me realize how much of a meaningful impact I'm making. Being able to give back to the community was truly an experience and was some of the contribution of service I made within my community, and I hope to make an even bigger impact on Key Club International.

What makes you stand out as a candidate for the respective position that you are running for?

Having served as the CNH Kiwanis Family and Foundation Chair, I have acquired a deep understanding of community service on all scales. From communicating with Kiwanis District Officers to coordinating events with CNH KIWIN'S and Circle K, my efforts have consistently incorporated those beyond Key Club. I have learned to balance the schedules of the six Kiwanis Family branches and maintain effective, streamlined communication between individuals from different backgrounds. Remaining patient, empathetic, and organized were critical. I have also learned to coordinate with the varying procedures and regulations of the Kiwanis branches, adapting and adjusting my own work methods. I am constantly inspired by other Kiwanis branches to explore my creativity and implement ideas outside of the Key Club norms. At the same time, I have been able to introduce my own background- Key Club's culture- to other parts of the Kiwanis Family. Implementing ideas on such a large scale and facilitating an exchange between different

frameworks of community service will undoubtedly apply to my role as International Trustee. I will be able to use the skills acquired as KFF Chair to address the needs of a diverse population, taking into account their different environments and levels of accessibility and learning to stimulate exchange between Districts. I have been trained with a broad, open-minded perspective; I am receptive to new ideas; and I have an extensive understanding of how to maintain relationships with Key Clubbers across the globe!

What has been your most meaningful contribution of service in Key Club? What made it so?

To this day, my first Key Club service event continues to instill within me a drive and a passion- an ikigai. It was the summer after 8th grade in the middle of July: not the most notable of Key Club events but rather, a small Kiwanis Fireworks Stand with a maximum of 20 volunteers. Yet, as we unpacked fireworks and stood on the corner of Downey and Artesia in the sweltering heat, I felt a sense of joy and fulfillment bubble inside of me. I stood beside strangers not unlike myself- juniors and seniors who had fallen in love with service and who would become my mentors and role models. As we worked, we listened to Hamilton on repeat and engineered our own raps to promote the fireworks stand. Perhaps most importantly, out of our silliness would blossom an idea for a club spirit committee- my first Key Club leadership position. By the end of the 6-hour shift, I felt giddy with excitement, encouragement, and prospects of the future; I felt right at home, motivated to grow and tap into my undiscovered potential. The fireworks stand continues to represent the perfect interconnection of community service and an all-embracing Kiwanis family that ignited a spark from within. It is such experiences that Key Club offers that are deemed as "Key Club Moments", and to me, it will forever be a reflection of the power of service and community.

What makes you stand out as a candidate for the respective position that you are running for?

I differentiate myself from other candidates due to my distinctive viewpoint and numerous years of experience in leadership roles including Key Club. Throughout my freshman year, I had played an active role in Key Club at my school by attending meetings/events, applying for open positions, and exploring new interests. I have had the pleasure of meeting some exceptional and remarkable individuals as the result of my service on the Club, Division, District, and even International levels. I prefer not to engage in procrastination, and if I happen to make mistakes, I strive to determine the cause and work to develop an approach to prevent future occurrences. Being able to work with various individuals in my region has allowed

me to gain experience in aspects such as fundraising and marketing charities towards members. I also value flexibility in the work I do as it allows the opinions of members to be executed and for new ideas to flourish within districts. I believe that everyone in Key Club has something to offer and when we all work together, we can achieve great things!

What has been your most meaningful contribution of service in Key Club? What made it so?

My most meaningful contribution of service in Key Club has been volunteering at a local basketball drive in my city. At this event, I had the opportunity to work with multiple local organizations to provide basketballs and clothing to underprivileged children in our city. I had helped set up the event by putting Christmas trees up and distributing clothing to children. When I passed out items, I felt a sense of joy, it reminded me of my childhood and how I had lacked such items due to being a recent immigrant. It allowed me to help multiple children and provide them with a memorable Christmas with gifts, clothing, and food. This event led to me eventually running for a Division level position and working to fundraise for PTP and March of Dimes, these organizations are very dear to me as I plan to work in pediatrics in the future. It made me feel good that I had left an impact on someone's life that day and that our Division had a part in it. I had also spoken to local leaders and expressed what Key Club stands for and the values we nurture in our members.. I believe that many children that day had left with a sense of confidence and a will to support others as we had expressed the importance of giving back to communities. An act of kindness can ignite a crowd of powerful future leaders.

For International Trustee

Hey Buzzin' Bees!!!

Hey Buzzin' Bees!!!

My name is Shivneil Pal and I am honored to ask for your endorsement for KCI International Trustee!

Given how profoundly Key Club has altered my life, I hold it in the highest regard and want to provide other districts and members with the same opportunity. I am committed to Key Club and believe that it can offer something to everyone.

Given that I joined as a member and am currently a leader in my division, I think I have something to contribute to everyone in Key Club due to numerous years of experience in both the club and division board. I believe that with my experience I can increase member engagement and overall club communication.

While being a member, I have noticed over the years towards the end of each term, service hours stagnate and many members no longer attend events. This can be countered with my PALS plan, which works to strengthen communications between the district and members and provide members with materials so they are able to have a enjoyable experience.

I believe Key Club members should have their voices represented by someone who will strive to address these issues.

I'll make it my aim to put Key Club above of all other organizations and facets of my life. In order to make sure that Key Club is a fun experience for everyone, I will respect the views and voices of all who participate in it. Together, we can be PALS working towards bettering the world

Your PAL in service,

Shivneil Pal

What makes you stand out as a candidate for the respective position that you are running for?

Something that helps me stand out as a candidate is my ability to connect with others. During most of my years in preschool, kindergarten, and early elementary school, I have grown up moving houses every few years, stressing the importance of creating friendships that help me settle and adjust to each novel environment. When my parents told me that we would be moving houses and schools the next year, I would always have mixed feelings. Of course, I would hang my head low at the thought of not being able to physically play with my friends every day, but part of me was surprisingly excited; I was excited for what this new life in this new house would bring. Eventually, during the summer before the third grade, my family settled down in Irvine, attracted to the renowned school system. Here, I was able to plant roots and connect with my friends on a deeper level than before. This then translated to my experiences in Key Club as I was able to greet and meet countless new faces along my journey in this

organization that share my cherished memories. Not only did this make my Key Club experience even more enjoyable, but it also enhanced my personal life as we make an effort to stay in contact with one another until we meet again. Being a personable International Trustee is something I feel is valuable as Trustees are tasked as the bridge that builds connections between various districts across the globe.

What has been your most meaningful contribution of service in Key Club? What made it so?

I feel that my most meaningful contribution of service in Key Club was toward my home division. From being one of the only active freshmen during quarantine to leading as my Lieutenant Governors' right-hand man for two terms in a row to representing the Froggies of Division 4 Central at DCON 2022, Key Club has been the one school organization I have genuinely developed a passion for. Stemming from a curiosity of what was contained beyond the walls of the club level, I began embarking on my journey head-first. Over the years, as I experienced more of what this club is truly about firsthand, I have also experienced why the dedicated veterans and alumni love it so much. While telling people about Key Club can only do so much, I hope that my passion and dedication to the organization can serve as an inspiration for other high schoolers to join in themselves and make a difference in our communities. Through the various positions that I have held at various levels, I have learned that my growth in leadership, communication, and teamwork can also be applied in many different areas of my life. As a leader, inspiring others is something I am always striving to accomplish. And since my time in high school (and, naturally, Key Club) will eventually come to an end, the cycle of inspiration will hopefully continue for future generations to come.

DISTRICT BYLAW AMENDMENTS

The California–Nevada–Hawai'i District Board presents the following District Bylaw amendments to be voted on during House of Delegates at the 77th District Convention.

AMENDMENT #1

Edit - Change all "he/she" and "his/her" references to "they," "their," and "them."

Example:

Section 4. The duties of the officers shall be as follows:

- a. The Governor shall be the executive officer of the district and shall preside at California-Nevada-Hawaii District conventions and at all Board of Trustees meetings. He/She They shall be an ex-officio member of all standing and special committees. It shall be his/her their duty to attend any convention of Key Club International.
- b. The Secretary shall keep all records of the California-Nevada-Hawaii district convention and of the meetings of the Board of Trustees. He/she They shall submit to the proper officials and committees all communications received from Key Club International. He/She They shall cooperate with the Governor in forwarding all official reports required by Key Club International. He/She They shall perform such other duties as may be assigned to he/she them by the Governor or the Board of Trustees.

Justification: Using gender-neutral pronouns throughout the District Bylaws promotes more inclusive language.

AMENDMENT #2

Edit - Article X: VACANCIES IN OFFICE BETWEEN CONVENTIONS

Section 1. In the event between conventions of a vacancy in the office of Governor, the Board of Trustees shall elect a qualified member of the Board of Trustees to become Governor for the unexpired term.

Section 2. In the event between conventions of a vacancy in the office of Lieutenant Governor, the District Governor shall appoint a qualified member of a club of the same division to be appointed by the Board of Trustees to fill the office for the unexpired term.

Justification: Removing the requirement for appointed Lieutenant Governors to reside in the same division would formally allow the District Governor to appoint a Lieutenant Governor that is from a different division in order to fill vacancies in office. The California-Nevada-Hawaii District has used this practice for the past several years to support divisions who were unable to elect a Lieutenant Governor.

INTERNATIONAL BYLAW AMENDMENTS

The California–Nevada–Hawai'i District Board presents the following International Bylaw amendment proposal to be approved during House of Delegates at the 77th District Convention. If approved by the District, the Bylaw amendment proposal will move on to be discussed at International Convention 2023.

Edit - Article V: ORGANIZING AND CHARTERING OF CLUBS

Section 1. A Key Club may be established in a high school or community-based organization ~~that does not have a Key Club~~ upon petitioning Key Club International.

Justification: The original wording prevents a second Key Club from being chartered at a school or community-based organization that already has an existing Key Club charter. Specific to the California-Nevada-Hawaii District, this would mean if a CNH KIWIN's club exists at a school or community-based organization, a CNH Key Club could not be built and chartered at that location, and vice versa. Thus, it limits the growth of both CNH KIWIN's and CNH Key Club. Removing this requirement would allow both a CNH KIWIN's club and a CNH Key Club to be chartered at the same school or community-based organization.
