

Kiwanis One Day

What is Kiwanis One Day?

Kiwanis One Day is an entire day dedicated to show the world the impact that the Kiwanis family makes every day. This is displayed through a day-long event, where **all of the branches of the Kiwanis Family**, all at the same time, **serve and give back** to their own respective communities!

When is Kiwanis One Day?

This year Kiwanis One Day will be on October 26th, 2019! So make sure to suggest to your sponsoring Kiwanis Club event ideas that you can host in conjunction with them! It'd be a great way to strengthen your bond!

Why and how can we, Key Clubbers, help?

Kiwanis One Day is a great opportunity to bring together the Kiwanis family of clubs to focus on local community service. It's an example of our belief that kids need Kiwanis—kids in the community need Kiwanis to provide programs and services no longer available because of school and municipal budget constraints, and kids who want to be in youth clubs need Kiwanis club members as mentors to help them thrive, prosper and grow.

KIDS

NEED

KIWANIS

The **Patient Service** story that is featured on the Kiwanis International website by Julie Saetre posted on August 2nd, 2019 highlights the works of **two Kiwanis Clubs' in France!** The clubs goals were to create a distraction for the youth that visit the hospitals. In order to complete this goal, the Kiwanis Club of Moulins partnered with Maxi Toys and the Leclerc superstore, providing two electric cars for the youth to be accompanied in on their way to the operation room. The partners also donated games to the pediatrics ward that kids could use, while the Kiwanis Club donated funds to the hospital to create a children's corner.

The Kiwanis Club of Moulins Femme en Bourbonnais reaches out to the children and adolescent patients of the Moulins-Yzeure psychiatry unit. The members of the kiwanis club support the unit by providing them with funds for both a "Clown Workshop" for children, helping to develop relationship skills, and a program for helping teenage patients become more independent through a process of enhancing common daily social skills. The club also supported the creation of a family room where patients can relax and develop their social skills more.
