# WHAT IS **TECHNOLOGY SAFEKEY?**

Technology SafeKEY is a program created by the students of the Communications & Marketing Committee to provide future leaders with better understanding of technology and to ensure them protection from harm. This program works to prevent cyber-bullying, enhance online presentation and encourage leadership growth. For technology SafeKEY to be successful, we need **YOU** to take initiative and action to implement it throughout your community. "**BEE** the change that you wish to see in the world."

TECHNOLOGY SAFEKEY "MISSION"

- Educate the youth about online safety
- Provide information on hazards of unsafe browsing
- Teach students how to safely utilize the Internet

CYBER- BULLYING "WHAT IS IT?"

The act of hurting another person emotionally by the use of technology as a medium.

CYBER-BULLYING "HOW TO BE SAFE"

- Confront the issue by telling a trusted adult
- Save and document all evidence
- Avoid posting inappropriate content.
- Think before you post!

IDENTITY "HOW TO BE SAFE"

- Secure personal information (i.e. your address or school) by keeping it private
- Be online with people you know in real life.
- Never meet with someone you met online

TECHNOLOGY SAFEKEY "IMPORTANCE"

Due to a growing reliance on technology on a daily basis, it must be noted that harmful encounters on the computer DO occur – but can be prevented.

IDENTITY "IMPORTANCE"

Access to your personal information can result in identity

HOW CAN I HELP? "TAKE A STAND"

- Spread awareness by presenting a workshop to a local school or a community center
- Do not tolerate any situation in that it can result in serious consequences
